# Can't Stop The Rain

**Prime Circle**

I'd like to thank you
For putting a smile upon my face
Cause I was dying for it and
It's a feeling that I can't erase no and
I got so lost there just for a moment
In outer space ye
Unexplainable dependency to all
These things I need you to see

Can't stop the rain from falling down
Can't stop the building form crumbling now
Just try and remember
Make it work somehow
Get it up stand Get it up stand

Little bit of money
Little bit of change
A little bit of something
To help the pain go
A smile on the face of a girl you know
Flippin her hair
Saying told you so
Sometimes things are so unexpected
Pushing around so unselective

Can't stop the rain from falling down
Can't stop the building form crumbling now
Just try and remember
Make it work somehow
Get it up stand Get it up stand
