

I'm Ready

Prime Circle

Good afternoon
Hope you're prepared for what's to come
Cause I've been waiting in this moment
Feels like days and days now
And I'll testify that
I can't contain my point of view
All comes down to this
All that we've been through

This is right where we have planned
This is what we want to do
There's nothing now that can stop us
Oh it's coming right on cue

I'm ready
I'm ready
I'm ready for this night to come
I'm ready
I'm ready
Open up your eyes and see

The blinding lights
The feeling as the sun begins to fade
It creeps in
Oh I'm sure you'll understand it
The avenues just knowing that
It's all about to start
You don't need anything
When it comes from the heart

This is right where we have planned
This is what we want to do
I'm ready
I'm ready
I'm ready for this night to come
I'm ready
I'm ready
Open up your eyes and see

Constellations everywhere,
Try to stop us
We don't care

Just open up your eyes and see it
Coming down like an avalanche of stars
That are falling to the ground
And it lights up the sky
And it lights up the way we are

You can see it from miles away from here
And it seems like we all just disappear
And I'm so glad that we all have come this far
