King for a Day

Prime Circle

We are pawns just pieces
Torn up cloths full of creases
Outside world don't know
Don't care we go

Kings and queens are a different sort
When we try always come up short
I know we'd be fine, if we could one time

Prove it to the rest of you

If I was king for a day
I would take it all back now
If I was king for a day
I would push myself faster

Try myself in a different shade
Open doors with a luge parade
The whole world would know
How much I could grow

No more corrupt conditions
Corporate crimes and addictions

I know we'd be fine if we could one time
And it comes again

All of these violent, violent mistakes
Burn down these bridges do what it wall takes
Storming these castles can't take anymore
And if we can't do that to them we say

If I was KING FOR A DAY
