

Know You Better

Prime Circle

I know you
Better than you know yourself
Hear you all around me

And I feel this way, could not be better
There's nowhere else I'd rather be

We're looking up, we're looking down
You see that that we're off the ground
And everyone disappears
And we're not changing

You know me
Better that I know myself
Hear me when I'm not talking

And I feel this way
Could change my life forever
And all we need is right now

We're looking up, we're looking down
You see that that we're off the ground
And everyone disappears
And we're not changing

We believe we could of been
would have been
Somewhere else oh now could have
been should have been something else
