

## Turn Me to Stone

Prime Circle

We've all been there  
We've all been lost  
Spent time then considered the cost  
All been at the top of the world  
Then fallen to the sand

Start our story with a girl named June  
Lost all of her money with one had she threw  
Stood back as her body went cold  
This isn't what she planned

You turn to stone and I can't move out my way  
Turn me to stone and I'll be waiting everyday  
You turn me to stone and I watch the seasons change  
Your turn me to stone, to stone

Don't think about the ones in the path  
Like the next case  
Jonh, who was driving to fast  
Lost it all with one curve in the road  
You'll never understand

She said her love wasn't like the rest  
Thought it different full heart in chest  
Sometimes love plays the fool  
And leaves us empty handed

You turn to stone and I can't move out my way  
Turn me to stone and I'll be waiting everyday  
You turn me to stone and I watch the seasons change  
Your turn me to stone, to stone

Sometimes we get such hardened skin  
And it becomes so difficult to start this all again  
Can't let go of all that hold us back  
Never gonna be the same again  
Never gonna to be the same again

You turn to stone and I can't move out my way  
Turn me to stone and I'll be waiting everyday  
You turn me to stone and I watch the seasons change  
Your turn me to stone, to stone
