

Turning in My Sleep

Prime Circle

Oh I've been waiting here without the sun
And find that it's so hard to carry on
And it's gone gone gone
And it's never coming back to the end of the world
Try stay on track
And it's all we know
And it's all we have
And it's push and pull and it's back and fourth
And its round in circles taking me to the ground

Maybe we can be all we wanna be now
It's up to us to try

Cause I don't want to be the reason why
I don't want to turn around this time
I don't want this gravity pulling me turning in my sleep

It took so long to make
It took so fast for it to break
And I'm just standing here
Just waiting seeing all that is at stake
And I seem to remember thins so different
When back way
They were now
