

## How It Ends

Primordial

Is this how it ends?  
Until only one song remains  
Is this how language dies?  
One tongue at a time  
Is this the noose?  
Waiting at the gallows end  
Necks will crack  
To the anthem of this world

Is this how it ends?  
No more myths  
To hand from word to mouth  
Is this how it ends?  
No protest songs  
No voices in dissent  
How did you feel  
When they  
When they called your name?  
And you stood in line  
For the  
For the last time

Only one song remains  
And the words are the same  
The anthem of this modern world  
See this world go up in flames  
See this world go up in flames

Could it be the final  
Chapter  
Before they burn the books?  
As we pass into  
The long night  
Long night of the soul  
Is this how it ends?  
Until only one song remains

Who dares  
To sing  
Out of tune  
And rewrite the refrain  
And live out of time  
We must sing  
The song of these people  
It's of  
A deep  
Unyielding pain

And we  
Must sing  
Sing our pain  
Of pain  
Of pain  
We  
Must sing
