

## Nika's Got It Wrong

Prince Daddy & The Hyena

I know you want to go drink and fuck all night  
But daddy knows how to kill it home and ripe  
You know I rolled this to have some fun outside  
But every corner, there's coppers on their bikes

You go to parties and try to convince me  
But somehow "not that rapey"'s not convincing  
They have maniacal and devious plans  
Involving freshmen girls too fucked up to dance

Let's see, I spent the past few months  
Lifted away from everyone  
I got high and thought everything was alright  
I guess I forgot about every aspect of my life
