

# Alone

Prince Fox

Keep my eyes wide open  
All your imperfections  
Couldn't be more impressive, babe  
Trigger my ignition  
Drive me through a sundown  
Talkin' bout our hometown, babe

Oh oh  
Share else my secrets and letting you in  
Oh oh oh oh  
Nobody else makes me want to forget  
Oh oh  
I never thought it would be like this, no

So take where you wanna go  
Its just us against the road  
When you grab my hand I question  
Why we ever lost control  
Take this where you wanna go  
Screamin' we ain't goin' home  
Let's forget about that time  
We said were better off alone

Don't think I can quit you  
You turn all the bad days  
Into not so sad days  
Nothin' more to wish for  
We've been through all the phases  
We wrote our names in pavement

Oh oh  
Share else my secrets  
And letting you in  
Oh oh oh oh  
Nobody else makes me want to forget  
Oh oh  
I never thought it would be like this... no

So take where you wanna go  
Its just us against the road  
When you grab my hand I question  
Why we ever lost control  
Take this where you wanna go  
Screamin' we ain't goin' home  
Let's forget about that time  
We said were better off alone  
...
