

## Come Thru

Prince Fox

You weren't too busy  
When you needed somethin'  
I did too many favors  
To come back with nothin'  
You put out your hand so  
You can take it away  
I said I didn't care but  
You don't mean what you say

You said it, you said it  
And I thought that you meant it  
You said it, you said it  
And I thought that you meant it  
When you said...

"You can rely on me"  
But you always been lyin' to me  
Sayin' "I'll be there for you, I'll be there for you"  
But you're not  
You got a lot of words but you never come thru

Now if I'm bein' honest  
I should trust no one else  
'Cause I just keep on givin'  
Till I got none for myself  
You put out your hand just  
So you can take it away  
I said I didn't care but  
You don't mean what you say

You said it, you said it  
And I thought that you meant it  
You said it, you said it  
And I thought that you meant it  
When you said...

"You can rely on me"  
But you always been lyin' to me  
Sayin' "I'll be there for you, I'll be there for you"  
But you're not  
You got a lot of words but you never come thru

I'm too trustin'  
I'm too trustin'  
Lost my trust in  
Lost my trust in you  
When you said...

"You can rely on me"  
But you always been lyin' to me  
Sayin' "I'll be there for you, I'll be there for you"  
And I thought that you meant it  
When you said...

"You can rely on me"  
But you always been lyin' to me  
Sayin' "I'll be there for you, I'll be there for you"

But you're not  
You got a lot of words but you never come thru
