

# Fake It

Prince Fox

Four feet behind me you're talking to somebody new  
So close I hear you I smell your perfume  
But I could watch you fall in love 100 times and still feel not  
hin'  
'Cause I don't miss you, I just miss havin' somethin'

But if you turn around  
And I drink all this down  
Maybe we can fake it one more night  
And I know it's nothin' real  
But for fun I dont need feels  
Maybe we can fake it one more night  
Fake it

I know you miss me, you said that you do  
Too many chances though, I thought that you knew  
But I could watch you fall in love a hundred times and still fe  
el nothin'  
'Cause I don't miss you, I just miss havin' somethin'

But if you turn around  
And I drink all this down  
Maybe we can fake it one more night  
And I know it's nothin' real  
But for fun I dont need feels  
Maybe we can fake it one more night

Maybe faking it  
Isn't making it  
Any easier  
Easier on me

But if you turn around  
And I drink all this down  
Maybe we can fake it one more night  
And I know it's nothin' real  
But for fun I dont need feels  
Maybe we can fake it one more night
