

Open Invite

Prince Fox

You don't have to wait for the call to come through
You already know all I want is you
It's an open invite, open invite
You know I could take you to the place you wanna go
'Cause if it ain't your touch I don't really want it though
It's an open invite, open invite

And I know it fell fast and if you leave it's alright
But if you wanna come back, it's an open invite
My doors are open for no one but you
So baby come through
My doors are open for no one but you
So baby come through

Four shots deep and you're kissing on the lime
Now I'm waking up and I still wish you were mine
It's an open invite, open invite
So they say ask and you shall receive
I'm just waiting love for when you ask for me
It's an open invite, open invite

And I know it fell fast and if you leave it's alright
But if you wanna come back, it's an open invite
My doors are open for no one but you
So baby come through
My doors are open for no one but you
So baby come through

And I know it fell fast and if you leave it's alright
But if you wanna come back, it's an open invite
My doors are open for no one but you
So baby come through
My doors are open for no one but you
So baby come through

And I know it fell fast and if you leave it's alright
But if you wanna come back, it's an open invite
My doors are open for no one but you
So baby come through
My doors are open for no one but you
So baby come through
