

Positive

Prince Fox

I'm positive, you kept me down
I'm positive, so I kept you around

I've made my mistakes
And I fell for your games
Now I'm going insane
Trying to keep you away
I'm positive, I don't need you now

Put your hands on me
Only if I want you to
Marks on my body
Only if I fuck with you, I'm positive

You should've loved me
You should've touched me
You should've known no better
So I'm positive, I'm positive, I don't need you now

Positive, you can never look out
I'm positive without you now
Yeah, I'm sleeping alone while you blow up my phone
Say you care but you don't get back to the phone
I'm positive, I don't need you now

Put your hands on me
Only if I want you to
Marks on my body
Only if I fuck with you, I'm positive

You should've loved me
You should've touched me
You should've known no better
So I'm positive, I'm positive, I don't need you now

It's the last time you'll be seeing me
I already know why you've been needing me
And I already got one better
Said I already got one better
I'm positive, I need you now

You should've loved me
You should've touched me
You should've known no better
So I'm positive, I'm positive, I don't need you now
I don't need you now
So I'm positive, I'm positive, I don't need you now
