

Still Down

Prince Fox

Its kinda weird to see you here
As if I didn't want it
I practiced everything you wanna hear
But fuck, I just forgot it
Cuz I just wanna hear bout how ya been
Ya please, don't make this weird
Cuz I might just be asking for a friend
But she's right here

Are you still down?
Are you still down?
Cuz maybe were not ready yet
But I think I'm ready now
Are you still down?
Are you still down?

I don't really know what I should say
We ended kinda rough
Slammin' all your doors right in my face
I thought enough was enough
But I thought about you
Every single day and night
Tell me how to fix it, yea
I'll make it right
I'll learn from my mistakes
But maybe not tonight
Cuz you're right here

Are you still down?
Are you still down?
Cuz maybe were not ready yet
But I think I'm ready now
Are you still down?
Are you still down?

Its kinda weird to see you here
I don't really know what I should say
