All A Share Together Now

Prince

Uh, dig me
Like Father teaches
Like Son do
With each generation
The past improved
Wealthy, wise, and stronger still (Uh)
No generation taking more than their fill

Like an arm reaches
The baton passes on
The scriptures teach us
No matter how long
The debt of the ones before us
Must be paid
All a share together now

Dig me now
Dig me later
Dig me now
Dig me later

Surplus (Surplus), deficit (Each on it)
Let's work together now for betterment
Call the brothers and sisters too (Sisters too)
Under one God
The true God
All a share together now
All a share together now
C'mon
Uh

Enemy sleepin' (What?)
At the bottom of the hill (Mm)
Good for nothing tauntin' for us to kill 'em (Kill 'em)
Still we hold fast
Never slay without a reason
Regardless of the crime
For everything, there's a season
Everything with time

Whatever a man reaps
So shall he sow (You told me)
All together now
Give unto all
What you want in your life
Watch the blessings just flow
All together now (Woo)
Let's stand it
All together now
Hit me, band

If you don't mind
I got something I got to say
She picked him out of a crowded room
Where there was only joy and laughter
She had a plan to change all that real soon
She always knew what she was after

Bass!
She tried to stop the bass!

All a share together now
Woo (Uh)
C'mon
All a share together now
All a share together now
All a share together now
That's good
