

Check The Record

Prince

Let's check the record
See what it said
Seem like your girlfriend
(In my bed)
Was in my bed
She called me first
No rendezvous
This sounds like drama
Now watcha gon' do?

The record
Check the record now
The record

She tried to tell me
(I tried to tell you)
As though I cared
She said you miss her
And now she's scared
You can mislead 'em
Even though she's young
She wants her freedom
She wants to run

It's about, it's about
The record
Let's check the record now
Check, check
The record

We take her places
She meets new faces
Out of the choir
She plays with fire
She'll never be you mama
If she stay with you
This sounds like drama
(Watcha gon' do?)
But watcha gon' do?
(Watcha gon' do?)
If it makes her happy
Can it be that bad?
Like Sheryl said
It might be the most favorite mistake I've ever had

Let's check the record
See what it said
Seem like your girlfriend
Was in my bed
I don't think so
I don't think so
You know what?

You better check, check, check
The record
It's about, it's about
The record now

Ooh
The record
The record now
The record
