

## Same Page, Different Book

Prince

Checkin' 1, 2

Eye hitched a train  
Between here & Saint Paul  
Eye had no idea  
That Eye'd sleep in a pig stall  
Once Eye got home  
The dirt that covered me  
Nothing like the disappointment  
(That) you would never see

Same page, but a different book  
So much more in common  
If you'd only look  
There's only 1 God  
Whatever name He took  
Only matters when it comes to war  
What are we, what are we  
What are we fighting for

Breathe, let it  
Breathe

New kids on the block  
Tryin' to make their beds  
Here comes another rock  
Upside their heads  
There goes the missile  
Headed for the hood  
Trigger another car bomb  
Did nobody no good

Same page, but a different book  
So much more in common  
If you'd only look  
There's only 1 God  
Whatever name He took  
Only matters when it comes to war  
What are we, what are we  
What are we fighting for

All right, listen you'all  
We're about to let this thing just  
Groove  
Move

Chapter verse  
Which came 1st  
Thinkin' to slow  
While they snatch ya purse  
Faith, law, good deeds  
Practicing what you preach  
Between you and me  
TV ain't reality  
That's right Eye said it  
It's said  
Buy this, cop that

All up in ya head

24 hour news  
That ain't right  
Them suckas gotcha  
Daydreaming at midnight

Galatians chapter 3 says:  
The law was as good as dead  
Having faith in the life  
Death & resurrection  
Of the 2nd Adam instead  
Would bring us all salvation  
If there's works in the faith we choose  
But if you're all alone  
Throwing stones  
Who do you think's gonna lose?  
Who do you think's gonna lose?

Same page, but a different book  
So much more in common  
If you'd only look  
1 God  
Whatever name He took  
Only matters when it comes to war  
What are we, what are we  
What are we fighting for

Same page, different book  
Same page, different book  
Same page, different book  
Only matters when it comes to war  
What are we, what are we  
What are we fighting for

Same page, different book  
Watch out for the sinister minister  
They're out there you'all  
Look out  
Same page, different book  
You're better off chillin' 'til the world ends  
What are we, what are we  
What are we fighting for
