

Apple Pie

Princess Nokia

Warm and fun like apple pie
You heat me up and cool me down
Come have a slice
I'm twice as nice
When you wash me down with lemon ice
Pinch my sides
Cover my eyes
Pick me up and ring me 'round
Don't want to fight
I'm yours tonight
Smooth as whiskey, take me down
I'm a summer night on a honest day
Just like a child I wanna play
Wanna play a game
Go and hide and seek
You can be the student, I can help you teach
Let me lick my lips
Blow you a kiss
While I sit here and sip my tea
You can chase me round
In my princess crown and make a big ole fuss at me

Cinnamon flavor
Taste the honey
I'm your little flower and you're my bumble bee
Sitting in the garden
Shade under the tree
Tell me that you love me and that you belong to me
Riding through the country
Hair blowing
I'm free
Never needed nothing just some time for you and me

Everyday I can fall in love with you all over again
You're sweet as pie
Come and kiss my thigh and mouth until I'm wet again
Fire in the sky
As I bat my eye
You go and bite my lip again
I'm so mischievous
Leaning for a kiss
Baby you are my bestest friend

Don't even have to call you
You're home by supper time
Tell you that its yours and you tell me that its mine
Look I made you something
It's homemade apple pie
I'm your little angel
I'm the apple of your eye
Sweet little kisses over my eyes
You cover my mouth and spread open my thighs

Cinnamon flavor
Taste the honey
I'm your little flower and you're my bumblebee
Sitting in the garden

Shade under the tree
Tell me that you love me and that you belong to me
Riding through the country
Hair blowing I'm free
Never needed nothing just some time for you and me
