

Closure

Princess Nokia

You came at the right time
And I let you
You came at the right time
You were meant to
Gift from the above
I know who sent you
We're my perfect person and I loved you

You gave me a love that lasts a lifetime
You fill up my cup
Till I am this high
Then you drain me out till I spill over
I wrote you this album for my closure

Even with what happened
I wouldn't go back
Love can last forever
And I know that
You filled every void
I had inside me
I knew you were dangerous
It excites me

You gave me a love that lasts a lifetime
You fill up my cup
Till I am this high
Then you drain me out till I spill over
I wrote you this album for my closure

I wrote you this album for my closure
I wrote you this album for my closure
I wrote you this album for my closure
I wrote you this album for my closure
