Dragons

Princess Nokia

My moon, my life
My stars, my sun
You are the sweetest song
My king at night
I wanna look you in the eye
My moon, my moon, my sun

And break the chains and what they meant
I'd like to
And stop the pain under the skin
I had to

Time we saw we're mad
Our royal, royal man
You are just that man to me
Half, not brought, blaming your own
You kept me with your toothless charm
It's so funny we're the strong
Let's make babies and go on a farm
I like you so much
That it doesn't even hurt

And break the chains and what they meant
I'd like to
And stop the pain under the skin
I had to

We can have tea
Talk about things
That are exciting
You can buy me bling, a wedding ring
You wear my chain, I like this thing
I'll just take you to lunch

We can have tea
Talk about things
That are exciting
You can buy me bling, a wedding ring
You can wear my chain, I like this thing
I like your sting
I like your sting
I like your sting

We can have tea
Talk about things
That are exciting
You can buy me bling, a wedding ring
You wear my chain, I like this thing

We can have tea
Talk about things
That are exciting
You can buy me bling, a wedding ring
You wear my chain, I like this thing

Mother of dragons, you are my sun
There's a place in my heart

That you already won
Mother of dragons, you are my sun
There's a place in my heart
That you already won

And break the chains
And what remains
I'd like to
And stop the pain of endless game
I had to
