

For The Night

Princess Nokia

Smash my heart in pieces
It looks so good on the floor

For the night, for the night
State to state, back to back, all the time
Get the bag, airtight
I could change your whole motherfucking life

For the night, for the night
State to state, back to back, all the time
Get the bag, airtight
I could change your whole motherfucking life

There I go
On the road again
Losing my love while
Losing my friends, yeah
Having fun
Where will it end?
Where do the fun start?
Where it begin?
I'm the type who likes to wear
[?] on my ends

Yeah [x8]

My life is up in the [?]
Sometimes I never go home
[?] I'm stoned

Moshpits, I'm throwing bows
Breakdown but I won't fall
Life's calling, I got to go
Meet me before my show
Loco from all this pain
Fucked up, I misbehave
Some things will never change
Blacked out, I'm not OK
I wanna know I'm safe
Show money, I'm getting paid

I make money to replace you
Used to love you, now I hate you
I make money to replace you
Used to love you, now I hate you

For the night, for the night
State to state, back to back, all the time
Get the bag, airtight
I could change your whole motherfucking life

For the night, for the night
State to state, back to back, all the time
Get the bag, airtight
I could change your whole motherfucking life

Live show, you never know

Solo, I'm on my own
Sometimes you crash and burn
Fuck it, man, I don't know
Fuck it, let's go get stoned
Groupies I wanna bone
[?] in the zone
Stay high but [?]
Lone girl, nowhere to go
Studio will be my home

I got nowhere to go

Bitches be in my throne
But they can't have my smoke
Rich kid, I'm all alone
I won't pick up my phone
You hear the dial tone
[?] I'm never home
[?] rolling stone
Sometimes you die alone (you die alone)

For the night, for the night
State to state, back to back, all the time
Get the bag, airtight
I could change your whole motherfucking life

For the night, for the night
State to state, back to back, all the time
Get the bag, airtight
I could change your whole motherfucking life
