

## Seraphims

Princess Nokia

Seraphims cover me with their night wings  
Wonder why I still, so calmly  
Feeling these [?] around me  
Heaven and earth is where you found me

Seraphims kiss the tip of my nose  
All of the pain, I seem to let go  
I guess [?] your heavenly gaze

Angels kiss my face [x2]

Time and time again  
I started wars in the heads of men  
I am a woman  
I do not break, I bend  
I'm sent to heal  
Angels are real  
And the world is real

Two butterflies sitting in my hair [x4]
