

The Fool

Princess Nokia

Oh man, oh man, oh man
I miss you
I know you miss me back
You miss me more when she don't want you
And I really hate that

All of this time you're still unhappy
It kind of makes me sad
Why do you stay where you're not wanted
Guess you're just used to that

Come back home
Come back home
Come back home
I've saved your place
I've saved your place

Come back home
Come back home
Come back home
I've saved your place
I've saved your place
