

Humans

Princess Superstar

If I was a man looking down a monkey mix
I see then I'm what a mess
These baby humans are in the government again?
If I always had my way
I would fill it up in a day
But I don't always get my way
So you got a million for a better day
I miss the alien
Have me equipped on you that's what I say

All these humans
All these humans
So I'm going around around around...

Oh yea, I have so many problems
Can you help me solve em? I wanna say I'm gorgeous
Funny thing is we all got the same problem
And nothing solves into it, thank God of whatever you call it
Don't believe in the counterfeit bill
That's weird but it's faith that fights fear and mother makes it all
clear
I had a little dream, a smile on my face for every human being
that I'm seeing and I got the feeling
That right here right now I am living
In Tokyo's grin, this prison
Cuz we got the whole wide world in our hands
It's in our hands...

All these humans
All these humans
So I'm going around around around...

Aha you wanna walk

All these humans
All these humans
So I'm going around around around...

All these humans
All these humans
So I'm going around around around...

All these humans
All these humans
So I'm going around around around...

They are coming around it, all coming around it
I'm coming around it, I'm coming around it
I'm coming around it, I'm coming around
