

# Joy Explosion

## Princess Superstar

Get on the bus, the joy explosion  
Get on the bus, the joy explosion  
One thing I can tell you is you got to be free

We are stardust, we are golden  
Get on the bus, the joy explosion  
We are stardust, we are golden  
Get on the bus, the joy explosion

We got it, you know it and we don't stop  
We gonna shout til we get just what we want  
I said you got it, you know it and we don't quit  
We gonna get real hot on this love trip

La la la la la, la la la lala (sion sion sion...)  
La la la la la, la la la lala (sion sion sion explosion)

When you set up and you get up and you jump  
Put your head, knick the bed and pull your comb  
Now you better get the setup, if you don't  
You don't wanna pull a gun up in the club  
You gonna get it when I'm comin up  
You can bet I show the minute when I'm showin up  
It's hot, if you got your hands throw them up  
Got love, get it up while we got the love

Work that, get that, keep it hot  
Bang that, both they got a lot  
Point that, work that, keep it wild  
Bang that, fuck that, just don't stop  
Work that, get that, keep it hot  
Bang that, both they got a lot  
Point that, work that, keep it wild

When you on the bus, kid just don't stop

We are stardust, we are golden  
Get on the bus, the joy explosion  
We are stardust, we are golden  
Get on the bus, the joy explosion

La la la la la, la la la lala (sion sion sion...)  
La la la la la, la la la lala (sion sion sion explosion)

Move your body like delicate kisses  
Swift my boys coming out your speakers  
X-bump beepers, cut leashes in pieces  
I'm from a different species  
Cosmic bitch, accomplished trick  
Never gave a Starbuck shit  
Never get high, maybe on top of it  
Walkin it, get on my drug rocket shit  
Explosion, here it comes, steppin out the mace  
I've never done to me, come together everyone  
From another planet, what's happenin?  
Keep clappin, I'm the boss cutting

Smacking, smacking, if you don't come along  
Sing sing a song, sing sing sing along  
A long time sunshine since I've been gone  
But I'm back to bring you back to where you once belonged  
Back to bring you back to where you once belonged  
Back to bring you back to where you once belonged

We are stardust, we are golden  
Get on the bus, the joy explosion  
We are stardust, we are golden  
Get on the bus, the joy explosion

We got it, you know it and we don't stop  
We gonna shout til we get just what we want  
I said you got it, you know it and we don't quit  
We gonna get real hot on this love trip
