

Cold Hands

Priory

I was by your side when your hands went cold
When your hands went cold.
You were by my side when my eyes went closed.
When my eyes went closed.
I was by your side, side
you were by my side, side

I would give anything for
another moment here besides you
if I could only hide you
where death could never find you
So we live up these seasons
as if we need no reason
oh we've only got this hundred years.

I was by your side when your hands went cold
When your hands went cold.
You were by my side when my eyes went closed.
When my eyes went closed.
I was by your side, side
You were by my side, side

I would give anything for
another moment here besides you
if I could only hide you
where death could never find you
So we live up these seasons
as if we need no reason
oh we've only got this hundred years.

go live like family
go live like family
you don'tcha live you die
you only got one
you only got one

I was by your side when your hands went cold
When your hands went cold.
I was by your side, side
You were by my side, side
