

Wait

Priory

I think I'm falling in love again...
...wait...
I think I'm falling out of love again...
but we don't care, cause it don't matter
...as long as we've got our friends

I think I'm losing my patience again...
...wait...
I think I gained my composure again...
all our friends, our family, our lovers
we hold on, hold on tattoo each other

oh c'mon, here we go
we walk out into the snow
I can't see nothing

and we don't need no sign
with our friends our guiding light
now that's something

singing nana we can weather the storm
singing nana we can weather the storm
but we won't freeze to death
but we won't freeze to death
we'll keep each other warm

oh c'mon, here we go
we walk out into the snow
I can't see nothing

oh I can see your soul

ooh oooh oooh
ooh oooh oooh
I lift the cover off

oh c'mon here we go
we march out into the snow
and we don't need our sign
when our friends are our guiding light
now that's something

I think I'm falling in love again...
...wait...
I think I'm falling out of love again...
but we don't care cause it don't matter
...as long as we've got our friends

singing nana we can weather the storm
singing nana so we can weather the storm
we won't freeze to death
I'm singing we won't freeze to death
we'll keep each other warm
