

## Leaves

Priscilla Ahn

When you feel that weight  
Off of your shoulder  
That's where the love is  
It's coming out of the leaves

An eternal fade  
Long and silent  
That's where the love is  
It's like the flower in your head

Nature's gonna know you  
Plants are gonna take you in  
If you're lost if you're lost  
They don't mind repeating

Clouds are gonna hold you  
Carry you and lead you home  
One truth one truth  
Never fades away

When you feel that weight  
Off of your shoulder  
That's where the love is  
It's coming out of the leaves

Nature's gonna know you  
Plants are gonna take you in  
If you're lost if you're lost  
They don't mind repeating

Clouds are gonna hold you  
Carry you and lead you home  
One truth one truth  
Gonna sing it again

Clouds are gonna hold you  
Carry you and take you home  
One truth one truth  
Never fades away
