

Song Of Hope

Priscilla Ahn

One day we could be living happily with our trees
One day soon, one day
One day we could see our children running safe and free
One day soon, one day

Listen real close to the wind at night
Carrying dreams that pass us by
Bye, bye, bye
Somebody hears when you cry at night
Somebody cares and it's gonna be alright

One day we'll discover
How to love and help each other
One day soon, one day
One day we will know
That to be free we must let go
One day soon, one day

Listen real close to the wind at night
Carrying dreams that pass us by
Bye, bye, bye, goodbye
Somebody hears when you cry at night
Somebody cares and it's gonna be alright

One day, I believe, our world will learn to live in peace
One day soon, one day
One day soon, one day
