

## Different Route

Priscilla Block

I prayed  
That you would change, but you were the same old boy  
Who's stuck in his ways  
Been tryin' to save ya  
But you pull me down  
Till I break down  
I refuse to, drowned in your pain

Cause you're always runnin' faster  
Than a record-breaking storm as it rolls in  
You're missin' all the signs  
That lead you to regret  
You're gonna come around  
And think about what we had, I have no doubt  
And by the time that you figure yourself out  
I've done gone a different route  
I've done gone a different route

Time passed, the flames that warmed your bed  
They didn't last  
The wind blew them away  
Bottoms up  
You're always takin shots  
On empty love  
Is it better this way?

Cause you're always runnin' faster  
Than a record-breaking storm as it rolls in  
You're missin' all the signs  
That lead you to regret  
You're gonna come around  
And think bout what we had, I have no doubt  
And by the time you figure yourself out  
I've done gone a different route  
I've done gone a different route

Our roads have changed  
It's still the same  
I'm moving on  
Id love to help fix your mistakes  
But you waited too long

Cause you're always runnin' faster  
Than a record-breaking storm as it rolls in  
You're missin' all the signs  
That lead you to regret  
You're gonna come around  
And think bout what we had, I have no doubt  
And by the time you figure yourself out  
I've done gone a different route  
I've done gone a different route  
Oh yeah
