

I Wish You Took My Heart

Priscilla Block

Eighteen years grown up
Wrapped in that little thing everyone called young love
Momma knew it then now I know it now
What goes up must come down
And you walked out

You took it all
Every single part of me
I fell so hard
I was so naive
Thinking of forever and ever
About these scars
Looking back at the rearview of memories
Cause movin' on is like swimmin' against the stream
Easy to fall back
Though I've come so far
And when you left you only left one part
I wish you took my heart

I wish I didn't care every time I heard that song
I wish I could be like you
Find someone new
And just move on
But I'm waitin' by the phone wishin' that you'd call
I wish you were the same but you're not at all
Cause you're the puppeteer and I'm your porcelain doll

You took it all
Every single part of me
I fell so hard
I was so naive
Thinking of forever and ever
About these scars
Looking back at the rearview of memories
Cause movin' on is like swimmin' against the stream
Easy to fall back
Though I've come so far
And when you left you only left one part
I wish you took my heart

The best part of me still believes in you
But the worst part of you left me black and blue
What am I to do?
With nothing left but a heart that I can't use

You took it all
Every single part of me
I fell so hard
I was so naive
Thinking of forever and ever
About these scars

You took it all
Every single part of me
I fell so hard
I was so naive
Thinking of forever and ever

About these scars
Looking back at the rearview of memories
Cause movin' on is like swimmin' against the stream
Easy to fall back
Though I've come so far
And when you left you only left one part
I wish you took my heart
I wish you took my heart
Oh, oh no
Oh, oh, oh, oh
