

Me Pt. 2

Priscilla Block

I hope you're happy
You said you never had a type
She's just like me
Likes her heels high, hair curled lightly
I hope you're happy

Was there something more in her baby blues you didn't see in mine?
Did she give you a little bit more in bed every night?
I heard she's five foot some change
Amazing grace, a little crazy
What is it she does that adds up that I couldn't do?
I hope you're happy
You found me part 2

I hope you're happy
I saw you pass by
Passenger side of her Chevy
I bet you're listening to your favorite sad country
I hope you're happy

Was there something more in her baby blues you didn't see in mine?
Did she give you a little bit more in bed every night?
I heard she's 5 foot some change
Amazing grace, a little crazy
What is it she does that adds up that I couldn't do?
I hope you're happy
You found me part 2
