

One More Kiss

Priscilla Block

Sitting in this empty parking lot
Waiting for you to come back
My head on the dashboard
Wondering how it ended so fast

Pick up the phone
Turn around
Grab my waist
And spin me around and around
I don't need it long
Just a minute to reminisce
Our past can be dismissed
With one more kiss

Lately I've been going crazy
Was it something I did?
It seems like a week ago we were in love
How did it come to this?

Pick up the phone
Turn around
Grab my waist
And spin me around and around
I don't need it long
Just a minute to reminisce
Our past can be dismissed
With one more

I know we're through
I know I don't mean a thing to you
I know we're not meant to be together
Come back one time
And we'll leave it all behind

Pick up the phone
Turn around
Grab my waist
And spin me around
I don't need it long
Just a minute to reminisce
Our past can be dismissed
With one more kiss

Turn around
Grab my waist
And spin me around and around
I don't need it long
Just a minute to reminisce
Our past can be dismissed
With one more kiss
Ooooooh, ooooooh
One more kiss
Turn around
