

Stranger Things

Priscilla Block

Stranger things have happened

There's a 7-47, every single minute, flying through the sky
There's been a size-9-boot footprint on the moon since '69
You can catch lightning out of thin air
The sun and the stars all shining up there
'Cause the man upstairs said to let there be light
If they can do that, then I don't know why

Why a girl and a guy can't say goodbye
Drink a long month by, realize they messed up
Hit rewind on the midnight fight
Give it one more try, one more try
Unslam that door, unpack that bag
Unsay those things they can't take back
Might be crazy for asking
But stranger things have happened

Yeah, I know we said it's over
But maybe we were closer than we thought we were
Yeah, when it comes to us together
It's safe to say that "never" is not a word

We can make all the wrongs all right
Make up for the last time
You can say I'm out of my mind
But I still don't understand why

Why a girl and a guy can't say goodbye
Drink a long month by, realize they messed up
Hit rewind on the midnight fight
Give it one more try, one more try
Unslam that door, unpack that bag
Unsay those things they can't take back
Might be crazy for asking
But stranger things have happened

Am I crazy for thinking?
Am I crazy for thinking?
Everything that I'm thinking
'Cause I'm thinking about us, but the thing is
There ain't a reason

Why a girl and a guy can't say goodbye
Drink a long month by, realize they messed up
Hit rewind on the midnight fight
Give it one more try, one more try
Unslam that door, unpack that bag
Unsay those things they can't take back
Might be crazy for asking
But stranger things have happened
Stranger things have happened
