

Denim

Priscilla Renea

Yeah, yeah
Hey, oh

You've got the love in you
How will you use the love?
How about we go and do
Something we've never done?

Let's try love on and wear it out
Till it's ripped up in the knees
Let's try love on and wear it out
Like your favorite pair of jeans

You got arms like denim
I feel so good in 'em
Love the way you feel up against my skin
When the morning comes, put 'em on again
You got arms like denim
I feel so good in 'em
Love the way you feel up against my skin
When the morning comes, put 'em on again

Watching you from behind
Can't help but wanna stay
Must be the way you walk
When you're walking away

Let's try love on and wear it out
Like it's all we'll ever need
Let's try love on and wear it out
Like your favorite pair of jeans

You got arms like denim
I feel so good in 'em
Love the way you feel up against my skin
When the morning comes, put 'em on again
You got arms like denim
I feel so good in 'em
Love the way you feel up against my skin
When the morning comes, put 'em on again

Denim, like denim
Baby, you know you got arms like denim
Denim, like denim
Don't you know that you got arms like denim?
You got arms like denim, hold me tight like denim
Baby, you know you got arms like denim
Denim, like denim
Don't you know that you got arms like denim?

Just like denim (denim), wrap me up just like denim (denim)
Just like denim (denim), wrap me up just like denim (denim)
Just like denim (denim), wrap me up just like denim (denim)
Just like denim (denim), wrap me up just like denim (denim)
Ohh
