

## See Forever Eyes

Prism

Looking right through you she knows who you are she's got see forever eyes

A spirit obsessed, a vision possessed with universal inner sight

No stranger to love she's had many men but none of them survived

Her crystal excites so follow the light of her see forever eyes

CHORUS

See Forever Eyes

See Forever Eyes

Beholding the mirror her eyes give a feeling of lonely vacant skies

Soaring above always searching for love the soul within her flies

Caught by a glance, in a gossamer trance, woven by her lies

Compelling them nearer, dispelling their fear with her see forever eyes

-SOLO-

-CHORUS-
