

## 3th Steps From The Grave

Private Line

Don't say you're so sorry  
Don't say you're sorry for me  
Don't pray for a way out now  
One step away from your dreams

Don't say it's all about to end  
It's a war and you're defending  
Yourself against them all  
Before we're gonna fall...

Jump into the dark side, baby  
Don't be afraid  
Break through or dead end, baby  
Take the 13th step from the grave

Don't be worry about me  
Get rid of people pleasing disease  
It's time to let it go now  
Friends are the worst enemies

Go now, take everything  
Just leave me behind cause in the end  
Your life is your only friend  
And you won't get it back ...

Jump into the dark side, baby  
Don't be afraid  
Break through or dead end, baby  
Take the 13th step from the grave

The 13th step from the grave

Go now, take everything  
Just leave me behind cause in the end  
There's no turning back...  
There ain't no coming back...

There's nothing left to save...  
Take the 13th step from the grave...  
From here to final days...  
Grawl to the bitter end!

Jump into the dark side, baby  
Don't be afraid  
Break through or dead end, baby  
Take the 13th step from the grave  
Jump into the dark side, baby  
Don't be afraid... Afraid of better days...  
Break through or dead end, baby  
Take the 13th step from the grave
