

Heroes

Private Line

„Hearts and mids“ we're set on fire ... smells like phosphorous
They're bound to see the light in time it's like Hollywood
The sky is bright our light is right, we stand for all that's good

Let freedom ring, we're sure to win, just like in the hood

Private Hope is a goddam hero
Blew em up never let us down
Carry on men
You make us ... proud
Those guns are awful sexy
We'll love to see you six feet down
Go stand with your zero heroes
Take em down down down!

In God we trust, suppose we must ... do it by the book
That flag gives us such a rush why the dirty looks?

Private Hope is a goddam hero
Blew em up never let us down
Carry on men, be heroes
You make us ... awfully proud
Lethal force to make peace
Help them to more rounds
Go stand with your zero heroes
Take em down down down!
Zero Hero!

What's with those heroes what is it they do
Just add those zeros Have you seen the news
What's with those heroes what is it they do
Just add the zeroes I can hear em too

Private Hope is a goddamn hero
Major Dope is a goddamn hero

Can you cope with the zero heroes
As they risk their lives for lies
Can you cope with real heroes
Oil Kills over enemy lines
Please somebody help me
Say we're not alone
We're stuck with these goddamn heroes
And the heroes not coming home
Not coming home!
