Ready!

Are you recording?

What's my name?

Whoa

(Priyanka)

Oh my God, it's so late

It's been a hot minute wanna see that face

Oh my God, I look great

Spending all my time and you're making me wait

Somebody better call the feds uh

'Cause I'll be turning heads uh

I'm about to cause a scene uh

Step aside, bow down for the queen now

One night, tryna take me down

When I call you're not around

You'll hear my voice's sound (No)

Sitting high up on my throne

Feeling good all on my own (What?)

But I'm staring at my phone

You want a piece of this cake

I'm feeling so hot I'm the chocolate, baby

Come on take that shot

It's getting too late, give you my goods

And take the bait (Ha!)

Taste-test you out

Make you feel hot when you see me, no doubt

You want a piece of this cake

Come get a piece of this cake

Ah, was it something I said?

You've been all night, get you out of my head

Oh my God, I see red

Wasting my time and you've made your bed now

Somebody better call the feds uh

'Cause I'll be turning heads uh

I'm about to cause a scene uh

Step aside, bow down for the queen now

One night, tryna take me down

When I call you're not around

You'll hear my voice's sound (No)

Sitting high up on my throne

Feeling good all on my own (What?)

But I'm staring at my phone

You want a piece of this cake

I'm feeling so hot I'm the chocolate, baby

Come on take that shot

It's getting too late, give you my goods

And take the bait (Ha!)

Taste-test you out

Make you feel hot when you see me, no doubt

You want a piece of this cake
Come get a piece of this cake

One night, tryna take me down
When I call you're not around
You'll hear my voice's sound (No)
Sitting high up on my throne
Feeling good all on my own
But I'm staring at my phone

Call me now, call me now
Call me now, call me now
Call me now, call me now

Call me now, call me now
Call me now, call me now
Call me now, call me now

You want a piece of this cake
I'm feeling so hot I'm the chocolate, baby
Come on take that shot (Yeah)
It's getting too late, give you my goods
(Goddamn, I taste so good)
And take the bait (Ha!)
Taste-test you out
Make you feel hot when you see me, no doubt

You want a piece of this cake
Come get a piece of this cake
