

Extortion

Pro Era

Yeah, my mentality is hostile
12 and I'm riding with Apostles
Beast Coast, nigga can't stop us
Henny straight blocking my chakras
This is but a dream
Life is not what it seems
Seems like you gotta make a cut
Or get cut up, or get cut by weed and jealousy
Now you see, keep it supreme what you waiting for
Being that we are perfect entities
Before you steal my identity
Then the end of me
Behind these lines
Im trapped in my mind
Forever B, Forever be
In the lion's nest
You'll probably just see

In a nutshell we steal nutshells
From women not up to par but
Partly I kill every universe till I reach Stars
Starring at us present present day we still at fucking war
So my mom pick up the cases
Dont judge me when shots go off
Im screaming who want war nigga
They dont want that war. x4
Lets get it, Lets get it

Shit your articles of clothing was an issue
With these magazine niggas talking shit, I'll load a full clip
Never face Defeat, but word up in the streets
We ain't free, don't sell me dreams
You ain't know that talk is cheap

Kirk be the nigga with problems
We gonna call Prob up, he gonna handle the problems
Vodka blocking my chakras
Bumping that Flying Lo and TOKiMONSTA
I gotcha
We superior beings, you seen how I been
Been living on clouds but this ain't no dream
Been riding on nimbus
I'm out for the spinach
My bitch didn't like it
Then fuck you, good riddance
It's hard to stay sane in a world full of sinning
But, see, all I got is my niggas
Kreeper and Slacka, you know we mean business Fucking gods on earth
Build and destroy it, our will is our turf
So don't get murked
Step through the door, you know feelings get hurt

In a nutshell we steal nutshells
From women not up to par but
Partly I kill every universe till I reach Stars
Starring at us present present day we still at fucking war
So my mom pick up the cases

Dont judge me when shots go off
Im screaming who want war nigga
They dont want that war. x4
Lets get it, Lets get it

Never face Defeat, but word up in the streets
