

## Florists

Pro Era

Yes yes y'all, I delete  
What? Hold up

Tangles and star bangers  
Astral projecting through telekinesis messages the Creeper, the specimen  
The man who's overly chauvinistic  
Who bumps Madlib and scrap people with mad libs  
A dish best served cold  
Tote this bud, it's wiser to use blunt roll  
Induce gas guzzlers  
Mass of the dice cee-lo with mad hustlers  
Now back to the nap raps where Grandma is slain for the fanny pack  
Told the stashin and the fashion  
It's the Creeper, stay flashin  
Images and nudies of girls screamin, "cooties"  
It's only cause I got the woodie  
I just wanna get the cookie  
This the type of shit I do in my sleep  
The most slept on like the pillow plus the sheets  
Most of these niggas think they hot shit  
Get hit with the mic and come out with clean ass rap sheet  
Weak emcees, I ate half of them  
Like a male burp out chains like old cartoons burp out names  
It's a Beast Coast veteran  
Go ahead, let em in, check the regimen  
Who you think you better than?  
Nicer than me, Slow That Down, don't get clapped  
Put them together, first letters, all caps when you say that  
Man what you earn? More just than you earn  
Might as well make your income the creases in the couches  
Please learn, Man you wanna?  
Yeah it's your turn to face this L like pussy eaters with gonorrhea  
Let it burn, might as well be interracial  
She said she love facials  
Wait, hold on, come again  
Hold on, bring a friend, you know shorty is a ten  
The PE hooligans swing around then  
Kirk Knizzy in the house, the Creeper all about  
Ima show you what emceeing is really about  
Like yes, yes y'all, I delete all  
Make emcees withdraw from my left balls?  
It get dramatic, screaming help  
You can't take it, shoot yourself  
I never address the ties, my nigga shoot yourself  
Like sorry Ms. Waters, I can't take the rain  
But beside the fact, man I'm glad you came  
Next round, took out the pistol with a calcite crystal  
Balance the shoe missels but no toe  
It was all brittle  
Thinking all schizo  
After the fact she tried to call me "little"  
Little did she know she let me hit for a nickel  
Same color strand like the Skittle  
Pitful, read her straight like a kittle  
Water side-tracking Creeper stop slacking  
Stop macking and nigga start straight attacking  
This the type of shit I do in my sleep

Leader of the nap raps, my nigga pick thissssss
