One for old times sake  
I know you heard 'em talkin' 'bout how them old times great  
So we should,  
Take it back to the 99 days

And you could be rays,

So skip to the happily every after  
Please, dreams or fame  
You're still my biggest fantasy,  
We're connected I'm a cancer see,

Like girl, let em' know who your man is  
Tried to use my manners  
You didn't want a companion  
Fuck if I'm sexist,  
Sex is what keep you guessing  
And I probably got you stressing  
When I'm not up in your section,  
But you could find me in dimensions

Tryin to outsource the last girl to make my head spin  
Old chickens  
When I axe  
How thier heads' spin,  
Trust their your bitches  
Court sliping for attention  
Said she gotta be wilin' with respect  
If you diving in wit neck  
Get a diamond on your necklace  
She can't swallow it if the timin don't effect me  
Knockin 'em all down,  
Diming no eflection,  
Yeah I got some trust issues  
But I want the lust tissues,  
Enough to f\*ck wit' you  
Like, I know it hurts  
But you love the way you it tickles  
So I guess it's safe to say you want a pickle

Even though I wasn't on your mind at times  
I missed you  
And still appreciatingg all the times we've been through  
Just dealing with your mind  
Such a complex mental  
With a smile so fine  
I wanna find her dental  
And I know her curves well  
Used to draw her stencil  
Once she sharpened my pencil  
Always was so official with the things we into  
But she always seeing different  
I'm too good to be true  
How we started off?  
Friends in the middle of school  
Now I'm touching her heart  
From inside of this booth  
Reaching out to them stars  
Like how she wanted us too  
So even though I our love lost  
Could I hit it on you?  
And I know you won't front  
Cause you know how I do  
So could I tell you what's gone
