

## Drink From His Cup

Pro

Knockin' knockin' at my door  
Yes I know what they are here for  
They kick it in, run inside  
Kidnap my wife this is goodbye  
I see hate inside your eyes  
My God and I you do despise  
If this prayer's my last time  
Hope through this He saves your life  
I will never hide I will never run  
I will sacrifice my life in the name of the Son  
Beat me to the ground I see the Glory of the Lord  
This the moment that we all been waiting for  
Let 'em stab me, burn me  
You are worthy  
Drown me, starve me  
Bruise me, harm me  
The pain that I bear cannot compare  
To your arms once I get there

People don't hear You so I'll be Your voice  
Suffering daily but still we rejoice  
Time for your glory I'm just telling Your story  
We'll carry the cross You suffered before me  
People don't know You so I'll be the one  
To introduce them to Your glorious son  
And until that day when we see Your face  
This race we'll run inspired by Love  
We'll drink from His cup

Dead in sin - the state of men  
Dirt and filth - they lay within  
Sacrifice - they need to live  
So I'll go down and walk with them  
They'll reject me - disrespect me  
Laugh and mock me - as they test me  
Send the guards to come arrest me  
I know that they won't accept me  
Thorns on my head nails in my hands  
But for the Father and His glory I will take this cross  
Cup full of wrath pour it on my head  
I will take every single drop to atone for the lost  
Let em whip me, curse me  
You are worthy  
Beat me taunt me  
Move me - hardly  
The pain I bear cannot compare  
For the glory of the Father - for You I share

People don't hear You so I'll be Your voice  
Suffering daily but still we rejoice  
Time for your glory I'm just telling Your story  
We'll carry the cross You suffered before me  
People don't know You so I'll be the one  
To introduce them to Your glorious son  
And until that day when we see Your face  
This race we'll run inspired by Love  
We'll drink from His cup
