

Get In

They wanna see us fall, but we gon' set it off
Take it to another level till we dead and gone
That's why we gon' get it in, in, in
We gon' get it in, in, in
I'm reppin' for the King, put that on His name
Won't a thang change till they put us in the grave
That's why we gon' get it in, in, in
We gon' get it in, in, in

Now till they put me in the grave I'm a ride
My homies by my side
Yes sir I'm on my grind to let them know He live and died
On the third day Christ came out the ground
That's why I got to lay it down
Blind till He elected me, so how you like me now?
Choppin' on the block when I hit 'em with the truth of the King
who rose
Humble when He came the first time
But the next time He come he gon' smash his foes
That's why I pack my clothes
When He come back homeboy I'm gone
Feel the same way I feel then let's roll
But till that day I'm into my soul PRO
