

Agendas

Problem

I don't got no agendas, I have no agendas
What you see is what you see, see, see, yeah
I don't have no agendas, I don't have no agendas
What you see is what you see, see, see, yeah

I don't have no agendas
I'm not with letting these white niggas
Keep on thinking they smarter than me
I'm not with teaching that the only way we can get bigger and better
Is to distance myself from the ones that started with we
No no no, I'm not with no agendas
I'm not with acting like me and these rap niggas are one and the same
I'm not partnering past misbehaviors from them niggas and writing it off
As simply shit is just part of the game
Fuck all that, I'm not with no agendas
I'm no longer pretending that I don't really just see what I see
Not finna let no nigga that streams a billion times think
That is what makes him bigger than me
Fuck all that, I'm above all agendas
Pray for all pretenders, gave too much sauce to these chicken tenders
The few people I helped, I watched them paint me as the villains
When I address homes, niggas retracted them feelings
Shit's wild
I'm not with no agendas
I'm not with women talking to niggas like it's pussy between our legs
Hit us with fists calling us bitches
Quick to call the motherfucking cops soon as they get popped back in the head
Fuck all that
I'm not with no agendas
Especially in business
Should see their face when they see who owns the most percentage
Uneducated black men that made us paperwork
Addressing all issues I don't hide behind no paperwork, niggas
I'm not with no agendas
I tell my kids only time people lie when they scared of a nigga
The truth gon' win every war we ever fight
Bring the darkness to my light
On this gang, I'll bury a nigga
Watch

I don't got no agendas, I have no agendas
What you see is what you see, see, see, yeah
I don't have no agendas, I don't have no agendas
What you see is what you see, see, see, yeah

So you can take that, um...
See, it's gon' work, nigga, it's go fall in, see it?
God got it, I guess

Not for no agendas, not for no pretenders
And what you see is what you see, see, see
I'm not for no agendas and I have no agendas
And you gon' feel me when you see, see, see
I'm of all agendas, I'm not for no agendas
And what you see is what you see, see, see
