

ANGEL

Problem

When I first met you, I already knew
There was something inside of you
Something I thought I would never find
Angel of mine

When I first met you, I already knew
There was something inside of you
Something I thought I would never find
Angel of mine

You're my, my, my, my angel
You're my, my, my, my angel
You're my, my, my, my angel
You're my, my, my, my angel

Can't deny your impression
Energy so electric
Let me be your protection
Your vibe is a blessing
The way you're killing these hoes
You're bound to get arrested
Mind down, hand up
Freaky with the handcuffs
Swear I won't take advantage
No, no, no way
Chess it, flip the land up
Ready to a lantern
Baby, you glow beyond viral
Our soul ties, beyond vital
Share romance in our past life
I knew one day I'd re-find you, yeah
Share romance in our past life
I knew one day I'd re-find you, yeah

When I first met you, I already knew
There was something inside of you
Something I thought I would never find
Angel of mine

You're my, my, my, my angel
You're my, my, my, my angel
You're my, my, my, my angel
You're my, my, my, my angel

You're my, my, my, my angel
You're my, my, my, my angel
You're my, my, my, my angel
You're my, my, my, my angel
