

Bangin It Out (Collie Bud Love)

Problem

This woman appears to be naked from the waist down
As she checks into a swanky hotel
It looks like this woman has decided to leave her trousers
And underwear behind when she checked into a hotel
Many wondered why she had opted to wander around the hotel
Half naked
('Cause I'm lit bitch)

Ya!
Wait a minute
I popped on

Baby who ready to come
Grab on your body then pull on your body
Now baby make love to my tongue
You're elastic I don't fuck with that
But I'm from compton and that's how we do where we from
We the shit but we ain't shit
