

# Be Like That

## Problem

Got the trigger up, hey  
And my nigga want to do something  
Itching with us  
They gotta take on them too  
I swear we at the streets, say what  
And we stay busting them moves  
They don't like the way we turn  
I bet they all do  
Be like that  
They be like that [x2]  
Be like that  
They be like that [x2]  
Be like that  
They be like that [x2]  
Be like that  
They be like that [x2]

I'm tired of niggas  
That's lying on digits  
My boo's got my back  
And they never be fonting  
I like me to Jane  
I stunt everyday  
For the niggas that told me  
I never be nothing  
You say your spouse out  
I loosen the blouse  
On the couch of the hoe  
Ain't go never see bitch  
Put that on mama  
Your crew our dog  
Is the special owner of the pedigree here  
All of these tracks  
I ain't gassing and passing  
Them niggas that's waiting in line for the part  
Ponny just got off probation  
So now he is able to ride around proud with the pack  
Sabba is tweeting and twerking and working  
Might nervous but know they ain't wanting no phase  
Niggas that use to be popping  
Now drop that  
I swear we ain't never go through that phase  
Give me the waiter or pass me around  
Pull up that track and that liquor run down  
Wanna run now we can let you run down  
For lower than what I can get for a pound  
Lower not loud  
You ain't making no sound  
You're not making a sound  
Feeling like I ain't got nothing to lose  
Prick on the risk  
Sole on the shoes  
Pull out your chick she planning to choose

S65, work faster than six hundred nigga  
Got the ice out the mud, that ice

That probably worth two hundred nigga  
Want to buy chillo, I wanna buy  
I'm a give this life to my brother nigga  
I own new shit, puzzle you  
I don't hang with them busting guting nigga  
They banging niggas naked, they gross  
I don't like to talk about it  
But they say the conversation rule the nation, right now  
Therm fucking riding niggas  
Nigga sicker than the patient, ok  
Marijuana in my jersey in the club  
Smuggle like jamaican, ok  
Okay, okay, okay  
It's all went right  
Got that red bottom on the luggage  
Sevens on them right  
It's suppose to be rosay and high powered  
They gonna leave me with stripe  
They were suppose to be deep trust  
That nigga had to cut out my sight, who that

They shot the gun  
The trigger run  
And my nigga run  
Do something  
Beat you up  
They got to take on the crew  
I say we at the street, say what  
And we stay busting them move  
They don't like the way we turn, I bet they all do  
Be like that  
They be like that [x2]  
Be like that  
They be like that [x2]  
Be like that  
They be like that [x2]  
Be like that  
They be like that [x2]

Hopping out a different ride  
Everyday I know you pussy nigga hating  
Something bet they hold on  
Nigga every ride over 150k  
Fifty rounds in the K  
You better go now nigga  
Spend everything on my diamond chain  
A say you look like you down with the diamond lane  
I told them little cruz GD is a VD on VDL  
Hustle gone down with all kind of game  
I been a G from the beginning and I ain't try to change  
Born a real nigga  
Out of the gang I stand  
Even with guns in the ride  
I be flying, getting high  
I bet the won't find a thing  
I stay riding one time with a million cash  
Swear for the crime, I decided to die  
All I gotta do is hit a button  
Next thing you see a food stash by  
I can hide for the day  
Could be a mansion standing out in Ankara  
You in love with the bitch well take the bra  
Make them come hard

Let them change the draws  
She was drinking we were skating  
Don't give a fuck if you not feeling me  
You still better watch how you deal with me  
But you can't hang around  
Cause you ain't real to me  
In layman nigga can't hang with me
