2 cups full of muddy, my heart's in the gutter
Fuck the felony, I beat the charges
See me in a truck, it's Maserati
All my passion is reachin' the masses
All this cash is right under my mattress
I go smashin' all over the atlas
I go splashin right up with the action
All these bullets wrapped up in some plastic
30 shots hold it right in the ratchet (that's true)
All my mans are straight up and savage and shit
Sleep on fendi, I play with the baddest

Easy money, these cars and these hoes and lights they be flashing
It's causing the madness
Bitch came straight to my crib with no panties
She tryna be down with a bandit
For these bands I'm a take full advantage
When I whip up, I whip panoramic
Fuck the motive, just pass me a Xanax
You just left me alone and abandoned
Shoulda known I was causing some damage
Al Capone, I jump right in a Phantom
Had your mama on crack cause of service
I'm just living my life with a burden
I hop in a spur and I'm closing the curtain
As I look right in your eyes and deep down in your soul
I can tell that you hurting
You want the bales, you want soft, you want hard
You want kush, you want molly, that's perfect
Ricky-Ricky-Ricky James
Got evicted, made a change
Started grinding harder than I ever did
Before and then, I got the fame

Everybody love me, I'm your favorite subject
Playin' with the bills though, countin', fallin' down like Dil though
Tearin' up tracks like railroad, whole bails lookin' like earlobes
Man it's cracky and no pecans, dump her then refine
