

Come Together (I Know, I Know)

Problem

Yeah, you frequently flyin' and livin' on lies
Livin' for real or livin' online
I'm pickin' her brain, she givin' me mind
I'm payin' her bills, she givin' me time
I'm layin' the steel, she feelin' inclined
To keep me together, hard as a rock
She soft as a feather, hot as a mocha
Yet tougher than leather, she like, oh boy, but I'm fuckin' her better
She like them toys, but I'm fuckin' her better
Fuckin' her better, and with the bullshit, I'm so wit' whatever
Pinnin' me down like she writin' a letter
Back and forth like we are writin' together
Unlock her soul, my personal treasure
Lick on her lips, the wetter, the better
Grip on her hips, then pull us together, yeah
Tongue in her mouth, we comin' together
Chokin' her light, we cumin' again
Five carbonades, we stumblin' in the crib
Sexier, sexier, lit
Anytime I'm lookin' stressed
She come put her lips on this a...
My personal vixen and shit
I make sure I kill that pussy when she play the victim and shit
Saw that rough rider, tried to DM his X
Coulda kept low, but she show me the text, nigga
On God, I swear, it's the simplest shit
Heard a few real ones done been in my... yeah
I know, I know, with all the women a nigga done swim in
How can a hoe call a hoe a hoe
I know, I know
We grow, we grow
Get low, get dough, get low, get more
Stay far away from the pony show
Livin' the factuals, only pay attention to actuals
Know when I'm creepin', it's tactical, yeah
I know, I know
Keep the bullshit to the back of you
Stayin' away from them niggas that type in all capitals, yeah
I know, I know

If you gonna have to stay around
Hold me down
If you gonna have to stay around
Hold me down
Hold me down
If you gonna have to stay around
Hold me down
If you gonna have to stay around
Hold me down
Hold me down
